

High-Definition Wireless Ultrasound for **Vascular Access**

Streamline Workflows

Easy to use with automated high-definition imaging, Clarius wireless ultrasound is the ideal solution to increase accuracy, improve safety, and reduce the risk of complications.

Streamline Vascular Assessments and Line Placement with Clarius

AI and octal beamforming technology deliver the resolution and performance you expect, without complicated buttons to navigate nor wires to get in your way. Automated vascular settings and enhanced needle visualization streamline imaging, while sensitive color Doppler and Pulsed Wave Doppler support timely diagnosis and patient management, optimizing both comfort and safety.

- Identify landmarks and abnormalities
- Quickly identify alternate cannulation sites
- Guide new AVF cannulation and difficult cannulation
- Assess arteriovenous fistula (AVF) maturation
- Increase cannulation accuracy with high-definition imaging
- Map vascular structures to plan safe PICC line insertions

Clarius is the future of patient care. The image quality is amazing for any scanner, much less one that fits in my pocket. The ability to wirelessly connect it to any Apple or Android device means that anyone on my team can use it with whatever they already carry around in their pocket."

Dr. Steven Steinhubl, MD

High-Resolution Ultrasound in a Portable Wireless Scanner

High-Definition

Octal Beamforming technology and 192 piezoelectric elements deliver high performance and resolution.

Specialized

Specialized presets, automated workflows, and artificial intelligence deliver superior imaging.

Wireless

Steadfast connection. Total freedom. Without cords, cleaning and disinfection are simple and fast.

Easy To Use

Friendly app for Apple or Android with swipe, tap, and voice controls.

Ultra-Portable

Ideal for small spaces, Clarius fits in your pocket. Take it anywhere!

Exam Management

Seamlessly transfer saved images and videos to PACS servers through the current DICOM web standard.

I love the fact that it's cordless. The picture itself is amazing, and I love the fact that I can increase the depth with a simple flick of the finger. As a first time user I was able to figure it out on my own without any guidance."

Dr. Div Kumar, MD
